

# Duo

Design by Ramos & Bassols.

Duo brings natural warmth to a space. Its gently curved form encases a supple wood-finished interior, lending a soothing sensibility.

Articulated through simple volumes with a sculptural quality, Duo becomes a focal point without the need for suspension. Crafted in veined oak and matte-lacquered aluminum, its sleek shell and richly textured veneer yield an intriguing material contrast, complemented by a rich, diffuse downlight.

Vibia's general lighting, spot accent and downlight luminaires include the option of tunable white. Combining these zenithal tunable white lights with the rest of the diffused and indirect lighting effects of Vibia's portfolio, you can design the perfect scene for every moment and use.

**Tunable White (2200K - 4000K)**  
Tunable white lighting option allows for comprehensive temperature regulation depending on the atmosphere of every scene.

**Static White 2700K; 3500K**  
You can select the static white option that fits best with the desired ambience.

Contact Vibia Support Service at [vibia.com](http://vibia.com) for any kind of assistance or recommendation when designing an atmosphere of wellbeing, or if you require support with control system approach.

“We chose wood because it's a natural and quality material. It lends warmth and at the same time contrasts with the surrounding meta”

Ramos & Bassols.

CRI>90

#### Control

Analog: Push; 1-10V  
Digital: DALI-2; DALI-2 DT8  
Smart: Casambi

# Duo Petra

Design by Ramos & Bassols.

Duo Petra's slate veneer lends a timeless elegance to the collection. The ceiling lamp's gently curved form encases a velvety slate-finished interior for a sophisticated, natural aesthetic.

Simple volumes meet sculptural quality in Duo Petra, expressly designed for those lower-ceiling rooms where a pendant fitting is not suitable. It stands harmonious and sleek, its satinised diffuser radiating with a soft and general diffuse light.

Vibia's general lighting, spot accent and downlight luminaires include the option of tunable white. Combining these zenithal tunable white lights with the rest of the diffused and indirect lighting effects of Vibia's portfolio, you can design the perfect scene for every moment and use.

**Tunable White (2200K - 4000K)**  
Tunable white lighting option allows for comprehensive temperature regulation depending on the atmosphere of every scene.

**Static White 2700K; 3500K**  
You can select the static white option that fits best with the desired ambience.

Contact Vibia Support Service at [vibia.com](http://vibia.com) for any kind of assistance or recommendation when designing an atmosphere of wellbeing, or if you require support with control system approach.

Duo Petra's silky slate-lined interior provides a subtle contrast with its matte aluminum outer shell, a sober and modern aesthetic for an elegant interior style.
