

Top

Design by Ramos & Bassols.

Soft, spherical shapes and a warm luminescence characterize the Top collection. Its glowing epicenter is encircled by a larger ring, framing the light within its pure geometry.

A contemporary take on the traditional rosette motif, Top is defined by a pair of concentric circles that combine to produce a halo of ambient, indirect light.

Top distills the timeless rosette down to its essence. A pair of simple circles creates a pulsing nucleus of LED-powered light overhead. The smaller illuminated sphere projects light outwards towards the larger one, creating a halo of even, indirect light and generating a soothing atmosphere.
